

We, therefore, are reaching out to Catholic Charities to help correct this injustice. We requested and received five years worth of the annual Form 990 that details your annual revenues, expenses and your balance sheet. We must say that we were quite impressed with the annual performance of your charity and the financial strength reported on your balance sheet for the year ended 6/30/16.

We are respectfully requesting a donation of \$82,500 to the Lake County Council on Aging and/or to Lake County Children's Services. These agencies are under extreme pressure to maintain services to an aging population, and to children that are neglected by their parents due to the opioid crisis that is further destroying the family structure in our communities.

We would be glad to speak about this subject with you in person or by telephone.

Sincerely,

Brian Massie
