

Subject: Commissioner Dan Troy's Bullying Tactics – Preventing Jack DeSario, Political Consultant for State Representative Ron Young, from ever working in Lake County again.

LFC sent an email asking about an allegation we heard about Commissioner Dan Troy statement to a Lake County official that Jack Desario will never work in Lake County again because he is working for Troy's opponent, Ron Young.

Email from Jack Desario - Dated: October 5, 2018

Brian, Yes, I was told by [name redacted] that Dan Troy threatened me and said I will never work in Lake County again if I help Ron Young. However, I really like [name redacted] and it took some courage for him to tell me that! Therefore, I don't want to come down on [name redacted]. I do believe he is an excellent public servant who has to work with a toxic County Commissioner!

In regard to Dan Troy, I believe his threats are despicable. Threatening people because they don't support you is bullying and misusing public office at its worst. People should be hired based upon their talent and knowledge not if they cater to you! I will never conform to political threats. In fact, it makes me resolute in my belief that Troy does not deserve public office. Jack
