Find your appropriate taxing district on the chart above. Multiply the assessed valuation (35% of the market value) by the effective rate for your taxing district and divide by 1,000 (effective rates are per \$1,000 of valuation). As an example, a Painesville City homeowner with an assessed valuation of \$42,000 (\$120,000 market value times 35%) would multiply the \$42,000 by the effective residential rate of 74.977292 for the City of Painesville and then divide by 1,000 which results in \$3,149.04. A Non-Business reduction in real estate taxes is provided by the State of Ohio for all residential/agricultural property in the State and an additional Owner Occupancy reduction is provided for owner-occupied residences. Therefore, in the example above, an additional 9.2594% (Non-Business) or \$291.58 and another 2.3148% (Owner Occupancy) or \$72.89 or a total of \$385.84, would be deducted from the \$3,149.04 amount, which equals a net tax of \$2,764.56. The Non-Business and Owner Occupancy factors will be on your tax bill and can fluctuate between taxing districts. This amount would be for a full year of taxes. It is imperative to understand that with the State Budget that was passed that beginning with the November 2013 election no new, additional, or replacement levies will receive Non-Business or Owner Occupancy Reductions therefore you may no longer be receiving the full 10% and/or 2.5%.
