

Matt Sabo, Susie Cobb and Andy Rose are employees

Samantha Brainard is the wife of a current lieutenant fire chief, Wally Brainard

Linda Legg worked for the township for years. Her husband did (or still does?) work for the township

I think Andy lives in Mentor. Why is he listed in the Hunt Club? Did he move?

VOTE NO Concord Fire Stations Levy. Join fellow Concord neighbors in Voting No on Issue 1.
Support our first responders by building Station 2 now.
No new taxes.

Linda Kangas you and the rest of ACT are nothing but classless individuals! To post this on 9/11 is especially disrespectful. You are proving that you don't care about the firefighters one bit regardless of how much you say you do, you all have shown the world that you truly don't!

How about we ask the firefighters if they feel your support. I am sure they do not!

And you did this on September 11th? I can't think of anything more shameful. Do you people have no respect?? No moral compass? Unreal!!

Your group is a joke. You all should be ashamed of yourselves. You don't support your fire department but you have some deceptive signs that say you do as you hold others that say no. Absolutely shameful and disgusting. Selfish, it's prolly the same amount of money half of you spend on Starbucks. Maybe the fire depth should hold vote yes signs as they are helping you in your time of need at your emergency. Thank about. Absolutely shamefully.

The group of residents pictured have been spreading misinformation and manipulating statistics to suit their needs for over 20 years. Sooner or later, the truth about their motives will come out.

This photo was taken on 9/9 and they waited until 9/11 to post. Maybe now Concord can see this group's true colors. This is how they support first responders? They have so much respect for our firefighters they took the photo from across the street. 9/11 is a day for honoring the thousands who lost their lives not just our brother and sister first responders. This is disgraceful not only to Concord Township and the fire department, but also to the Country we call home! Our first responders bust their butt to save the lives and homes in this community and when we see a vote no sign in the yards of homes and lives that we have saved how do we not take that personally?
Do not stand with these people with no moral compass and VOTE YES ON ISSUE 1.

Matt Sabo, truth and true colors ALWAYS come out! This is disgraceful and so very very classless! Concord is better than this! Thankfully, these 15 people just showed their true colors all over social media and on such a heart wrenching day of the year they chose to post it! We all have choices! And this is what they chose! Choices have consequences! Choose wisely!
