

# LOBBYISTS FOR CITIZENS

★★ A VOICE FOR THE CITIZENS OF NORTHEAST OHIO ★★

Fall 2021 / LobbyistsForCitizens.com

Brian Massie speaks with Lake County Commissioners on having accountability and transparency for Lake County taxpayers who fund the Visitors Bureau.

If you would like to support our efforts to be your voice, please consider donating. You can make checks payable to:

**Lobbyists for Citizens**  
8196 Rainbow Drive  
Concord Twp, OH 44077

Please remember that being a citizen in this great land is more

than just paying taxes and voting every couple of years. Our constitutional Republic requires constant diligence by the citizens to ensure that our elected officials and bureaucrats adhere to their oath of office to follow the Constitution and put the interests of their constituents ahead of their own self-interests.

## What is Lobbyists for Citizens

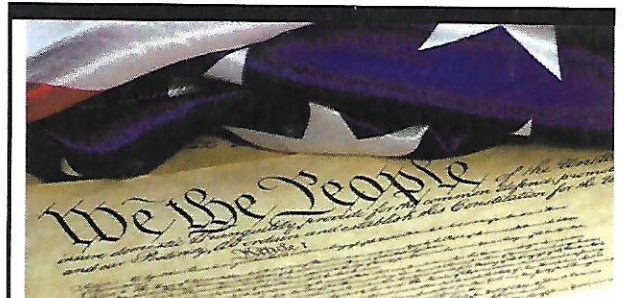

Brian Massie of Concord Township in Lake County Ohio established a 501 (C)(4) Non-profit community activist group dealing primarily with Lake County Ohio issues in 2018. However, we also report on issues important to the State of Ohio, our great nation, and world events. We were initially concerned with the ever-increasing property taxes and did extensive research on the topic. During discussions with the State of Ohio Board of Equalization on HB 920 (legislation that reduced the impact of inflation on home values), we learned that there were lobbyists for every group imaginable but were informed that there were no "Lobbyists for Citizens". That phrase stuck with us, and to the chagrin of many politicians, a tenacious activist group was started.

We started with our on-line newspaper with the stated mission of ensuring honesty, integrity, and transparency at all levels of government. We will expose the lies, deceptions, and betrayals of the constitutions of the State of Ohio and the United States. At the same time, we always adhere to our Christian principal of never bearing false witness against anyone. We intersperse our own brand of humor and satire to expose everyone that loses track of what it means to be a public servant. We also try to provide average citizens with a platform that permits them to be heard in the marketplace and will publish citizen submitted articles that we deem have an impact on our readers.

We have been called a moronic blog by a certain former Lake County Commissioner and now

State Senator, but when we see and hear that level of ridicule on the public square, we know we are "over the target." Politicians have the misconception that we are concerned about what they think or say about us. Nothing could be further from the truth. If they are "feathering their own nest" at the expense of taxpayers, they will be exposed, regardless of their political party.

Ultimately, we will be mailing the newspapers directly to our subscribers. Please be sure to sign up for our quarterly paper on our website **LobbyistsForCitizens.com**. We do not have any large corporate backing. We are funded by the people and are therefore, not beholden to follow any narrative other than the truth and the voice of the people.

## Are We Truly Free?

By: Mary Pruitt

As a young teen, growing up in the USA during the 70s/80s, I was very proud to live in a country known for its due process and rights. This was a place that I didn't have to worry that I would be picked up by the government and thrown in jail forever, or worse, for nothing more than a minor violation. These were the days that police needed a warrant to search your body, your car, your home, your phone. Those days are gone forever.

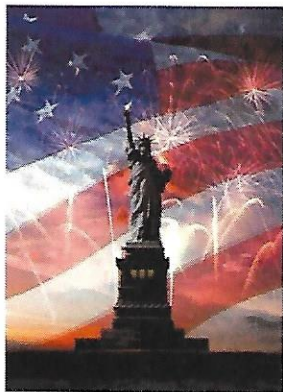

US citizen rights are now violated with the USA (not so) Patriot Act, the FISA court domestic program, NSA PRISM, Stingray equipment, vault 7 the consortium of big tech and Dept of Defense (DOD)/ other govt contracts (so much for private companies), the UN-ELECTED 17 Intel agencies unabashed and blatant disregard for our constitution, and now the Covid State of Emergency giving tyrannical powers to mighty governor despots.

CONTINUED ON NEXT PAGE

## Are We Truly Free?

CONTINUED FROM FRONT PAGE

As we know, China is authoritarian. What some people do not know, is their social credits mobile cell phone apps are used to allow or deny Chinese citizens access to basics such as transportation, shopping and jobs. They have been doing this long before COVID came to existence.

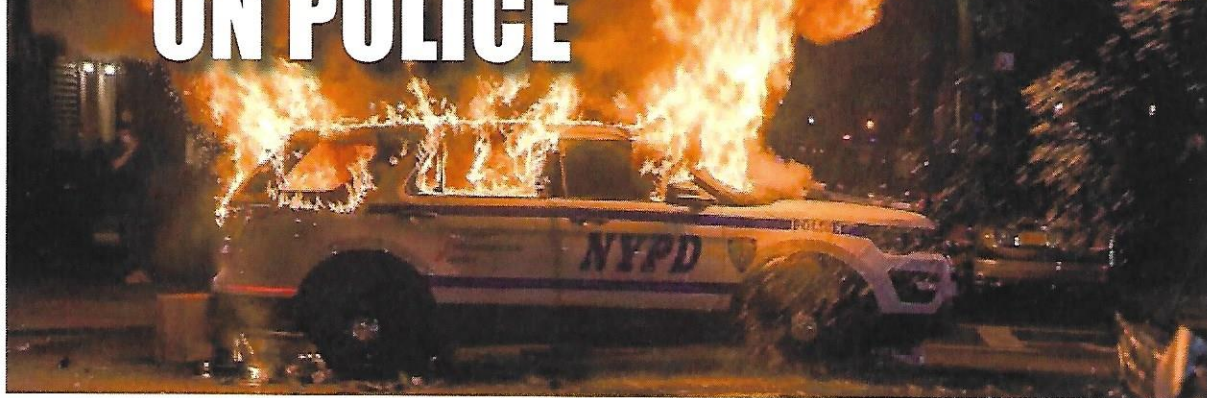

We the People of the USA, are currently making a straight path toward this type of social credits system, under the Vaccine Passport rollout, through our acceptance of such violations. The current social justification to epitomize the Chinese authoritarian rule over its citizens, is with the approach of dividing the unvaccinated (most are naturally immune) and vaccinated. The authoritarian despots of the democratic party are screaming for every man, woman, child, pregnant or frail, to get genetic vaccinations, at all costs, under a chaotic, uncontrolled COERCED experimentation.

Those pushing these experimental biologics, with such coercion and propaganda, are guilty of crimes against humanity.

It is imperative we understand the direction, we as a nation, have taken. We are the majority, who can decide to "go along to get along" or we can be a dissenting majority. Which direction is the best way to go? We do have a choice.

# BEHIND THE ATTACKS ON POLICE

By: Joe Ogrinc

Expect the attacks on local police to continue and even intensify. Unless we do something about it. More about that in a bit.

These attacks on police have been going on for at least the last 60 years. Robert Welch, a candy manufacturer, and later Founder of the John Birch Society, summed it up this way in 1963:

The Communists know, as the American people do not, that the city and community police forces now constitute one of the most important remaining obstacles to the gradual, insidious, and at first invisible, establishment of the mechanics of their Communist police state.

Marxists; leftists; their current terrorist allies in Black Lives Matter and Antifa; their billionaire financiers like George Soros, Bill Gates, Michael Bloomberg, or Jeff Bezos; and corporations are so blatant and open with their attempts to get rid of this most important remaining obstacle that it can hardly be any longer called invisible. Still insidious, but hardly invisible.

Those who lead the attack against police know that community, independent police departments are a key bulwark against completely taking over and establishing tyranny in America. Once defunded or replaced by

less-effective community outreach programs controlled by these same Marxists, crime will skyrocket - as is already happening. Exactly as the leftists planned and hope.

Los Angeles county Sheriff Alex Villanueva points out that criminals, emboldened by the defund the police movement, are behind the soaring murder rates in cities like New York, Chicago, St. Louis, and Baltimore - Municipalities, not surprisingly, controlled by Democrats.

He further points out that murders are up 200% for the first two months of 2021 and that preliminary FBI data shows a 25% surge in murders for 2020. That's the largest single-year increase since the FBI began publishing such data in 1960.

With such an upsurge in crime, their solution will be to call for a national or international police force to restore order, possibly administered through the states. If this trend continues, the United States will have its own version of the Gestapo.

This too is already occurring. Nancy Pelosi, Chuck Schumer, and the Democrat overlords have set up satellite offices for the Capitol Police in San Francisco and Tampa Bay. Why the Capitol Police need offices outside of Washington, D.C. is puzzling.

This is the same unaccountable Capitol Police who shot and killed Ashley Babbitt in the Capitol on January 6. To this day we don't know the identity of the officer who shot her. This is the type of policing sure to come to a neighborhood near you. Any excuse to nationalize the police. So, these 60-plus-years attacks are having their intended effect.

A national police force is a sign of tyranny. Just as the Marxists and their Deep State operatives want. Of course, they will control this force.

Does anyone really believe that national or international police will be less oppressive and more responsive to the communities they serve than a local police department?

National/international law enforcement officers are far removed from the community. They will be recruited from states all around the country. Or from foreign countries. They are outsiders brought in to work like mercenaries. They will have little, if any, connection to your local community.

Local police, on the other hand, are residents, neighbors, fellow churchgoers. Their children go to the same schools, they shop in the same stores, go to the same restaurants. They are local citizens serving their communities.

The solution to stop the nationalization of police is to support your local police and keep them independent of the national, international, and possibly state government, if it merely carries out national or international dictates. Then we can refund the police. That will go a long way toward restoring order.

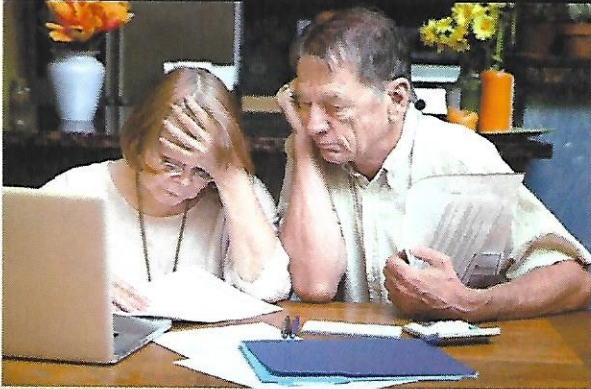

We don't have to lose our local, independent police departments to Marxists, leftists, Black Lives Matter, Antifa, the defund the police brigades, and their billionaire globalist financiers. We can beat them back, but we must organize in our communities with like-minded individuals.

The solution will not be easy. But then, most things worthwhile require work. With over 60 years in the making, it will take more than a simple fix to correct it.

### MORE INFO

Look for a neighborhood "Support Your Local Police" or "Keep Them Independent" group in your area and join. If one is not nearby, start one. If you don't know what these community groups are, go to [www.jbs.org/SYLP/](http://www.jbs.org/SYLP/) for more information.

More than 5 years ago, we publicly made the following statement: "If we continue on our current path of ever-increasing property taxes, we will price seniors and those living on fixed incomes out of their homes that they have worked all their lives to achieve". Nothing has changed our mind, and when we consider the specter of double-digit inflation that is coming our way, we are even more concerned for seniors.

We have discovered that our network of government and private non-profits [political sub-divisions] providing social and government services, surviving mainly on the taxes paid by the citizens, have a disturbing tendency to initially request for

more money in their levies than they really need to operate. They try to avoid, at all costs, going back to the taxpayers sooner than every 10 years, and will create a "rainy day fund" that is not warranted. A classic case in Lake County is the Deepwood Center with \$65 million in reserves.

It is our position that a political sub-division needs to return to the taxpayers at least every five years so that they are more responsive to the needs of the taxpayers. We cannot drain the taxpayers of their savings just to have it reside in some rainy-day fund just in case the political sub-division may need it.

# PROPERTY TAXES & How it Affects Seniors

## THE APPETITE OF THE LAKE COUNTY POLITICAL SUB-DIVISIONS IS INSATIABLE:

- Lake County government recently built a new administration center for about \$35 million.
- Lake County Commissioners are creating plans for a new \$100 million jail.
- The Prosecutor wants more lawyers.
- Lake Metroparks wants more revenue to build their rainy-day fund.
- Fairport Harbor wants \$5 million for a new school for 400 students.
- Riverside School District has plans for a new \$130 million school.
- LakeTran is building a \$17 million new office and garage to store their buses.
- Lakeland Community College wants a renewal on their levy when enrollment is almost half of what it was in 2010.
- Etc, etc, etc....you get the idea....

The private sector will soon be unable to pay for the public sector costs. Something has to give!

The Lake County population has grown less than 1% in the last ten years, and although the census for the age of the population is not known at this time, it is widely believed that the population is aging at an alarming rate. That combination of facts when compared to the ever-increasing salaries, benefits and pensions provided in the public sector will prove to be fatal for many seniors.

# Business Governing

# NOT

# Constitutional Government

By: Tom Niewulis

I know that many people view the United Nations (U. N.) and political entities as the destroyers of our Foundational Constitutionalism, but I have seen it differently for years now. Along with COVID and the Democrats' utopian "Green New Deal," Comrade Joe Biden has pulled back the curtain of Oz.

In this issue I delve into the intent of global businesses that are moving swiftly to fulfill their vision to accelerate the transition to a sustainable world by 2050. Their vision is to create a world where more than 9 billion people are all living cohesively within the boundaries of our planet.

**WORLD BUSINESS COUNCIL FOR SUSTAINABLE DEVELOPMENT (WBCSD) THE CREATION OF TRANS-HUMANS**

Let's talk about the concept of "trans-human." My background is in high-performance computing and telecommunications and knew about this effort in trans-human studies and experiments decades ago as I read books and articles by Ray Kurzweil.

Now, the tech-oligarchs and Silicon Valley high-priests of globalism and environmentalism are using the COVID pandemic to implement their experimentation into reality. Just something to think about.

Just a side note, you can reason for yourself how the WBCSD is looking at this concept as a mechanism in fulfilling their greater objectives in a sustainable world. Ponder these statements from the WBCSD as they dictate policy to governments:

**POLICY BRIEF:** To drive the transition to a 'circular economy' (September 7, 2021.) WBCSD's Vision 2050 report identifies the circular economy as a key lever in achieving a world where nine billion people live cohesively within planetary boundaries while contributing to global agendas such as the Paris Climate Agreement and Sustainable Development Goals (SDGs.) The latest science highlights that the circular economy can reduce global greenhouse gas emissions by up to 39% by 2032 and mitigate biodiversity loss.

However, despite the global momentum on the circular economy, today the world is only 8.6% circular 0.5 down from 9.1% in 2019.

Now is the time for ambitious actions and scaling the circular

# Are Taxpayers Funding the Destruction of Their Country Through Their Local School Boards?

By: Brian Massie, LFC Executive Director

We believe that our elected school board members are crucial to saving our constitutional republic. But we see a very disturbing trend in public education that must be stopped. State and local school boards of education and some individual teachers are mandating curriculum and control mechanisms that are preventing the family from deciding what is in the best interest of their children. There is definite movement away from individual liberty to a more "inclusive," collective society promoting "group think" and giving the state far too much control over your children.

**A collaborative effort by patriots around the State of Ohio have developed the following ten issues for citizens to use when trying to determine if the candidates for their local school board deserve your vote.**

**1**

Academic excellence being the #1 measurement of district success, the preservation of advanced and accelerated programs, and in-person classroom instruction.

**2**

A fair, balanced, and accurate presentation of American history, which requires good citizenship and patriotism based on the ideals of liberty, equality, and justice for all.

**3**

Parents right to know and to consent to any counseling or treatment their child receives.

**4**

Sound fiscal stewardship of tax revenue, and accurate reporting of educational performances.

**5**

Biological males participating in female sports or permitted in women's bathroom areas or vice-versa?

**6**

Critical Race Theory (CRT), the 1619 Project, and political bias in the curriculum or classroom that turns students against each other and/or their country.

**7**

Comprehensive Sexuality Education (CSE), Planned Parenthood materials, transgender literature, and attempts to sexualize children through graphic, age-inappropriate presentations of human sexuality.

**8**

Social and Emotional Learning (SEL) and "whole-child" ideologies, that prioritize feelings over rational thought, intrude on family values and privacy, and expose children to group or psychological manipulation.

**9**

A culture of entitlement that normalizes an ever-expanding role for schools, beyond an educational mission, and beyond a safety net for those in need.

**10**

Adoption or acceptance of any federal or state programs that might co-opt any of these commitments.

## THE SINISTER USE OF CHILDREN THROUGHOUT THE WORLD

By: Tabitha Korol

Using children in war situations is not a new phenomenon. They are the most vulnerable to the ruling powers, easily taken from unarmed parents and pressed into service by a government. Czarist Russia drafted children for 20 years, at least 300,000 non-Jewish and 75,000 Jewish Cantonists. Hitler's Germany drafted thousands of young boys known as Hitler youth, indoctrinating them to dedicate their lives for the Reich, unto death if necessary, and most were poorly trained and sent on suicide missions. As many as 40 million children, orphaned by AIDS, and controlled by drugs and religious or political fervor, were recruited in Africa.

Today, nearly 80 percent of about 30 conflicts worldwide have as many as 300,000 young combatants, ages 7 through 15, serving the war effort as scouts, messengers, looters, sex slaves, mine-sweepers, laborers, makers of bombs and terror tunnels, advance ambush, and suicide bombers. Nearly a half-million

children serve in armies not at war – duped, exploited and wasted.

### INDOCTRINATION

The use of children extends to indoctrination. In Islamic shame/honor cultures, the child is forced to learn the Koran with punishment by the whip, bonding them with violence for life. The child bride, often bartered or kidnapped, becomes an uneducated, incompetent and irresponsible mother, who is still dealing with the abuse, anxiety and trauma of having her female identity excised – female genital mutilation. The ritual produces a damaged self-image, the shame of being female and a self-hatred that is passed on to her numerous children who may well be the result of rape in a forced

marriage. Shaming fuels violent aggression that reinforces the male's brutality, not unlike the self-pity and sense of victimization that fueled Nazism.

### THE EXPENDABLE JIHADIST CHILD

Defenseless children may also be used as human shields and jihadis to increase their own death toll and net sympathy from the United Nations, and the girls often serve as "comfort women" for their commanders to become impregnated and sent into combat with their babies strapped to their backs. The mothers consider their children expendable because they themselves are expendable. Called "the martyr in his mother's womb," the fetus is dedicated to death even before his birth. The cause of

Islamic conquest is foremost, and the youths who do survive their horrific experiences are so severely scarred that they will suffer lifelong mental health problems. Despite the changes in war and engagement, the aggressor's agenda is always expansionism, acquisition, domination, and elimination, and the disposable children are sent away for hijrah, jihad by emigration.

### AMERICA'S SILENT ASSAULT ON CHILDREN

If war is the annihilation and replacement of one population by another, then America is experiencing a silent assault and eradication. One method of societal reduction or eradication is the promotion of a woman's right to abortion over the right

of the child to live and prosper. The child is mere material, to be used or discarded, as in Aldous Huxley's *Brave New World*.

The schools are now devaluing sexual differences, first with language, replacing accepted pronouns with gender-neutral terms and, second, with denying the child's nature, in the interest of "complete equality." Teaching staff are encouraging homosexuality, to emasculate the boys and erase the desire for courtship, marriage and reproduction, reinforced by Walt Disney films that encourage a "gay agenda." Family Research Council has just revealed that hours of instruction on evolving "sexual identity," contraceptive drugs and devices, and consenting to sex, are taught in Fairfax County School. The appalling curriculum includes (1) gender fluidity: biological sex is meaningless, (2) embracing gender transitioning, (3) encouraging risky sex, (4) discontinuing abstinence education, (5) teaching use of all

CONTINUED ON NEXT PAGE

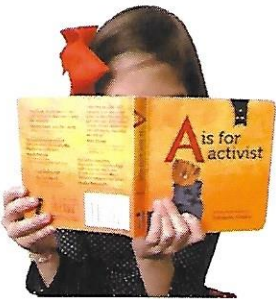

# THE SINISTER USE OF CHILDREN

CONTINUED FROM PAGE 5

contraceptive devices without divulging health risks, (6) parents may not opt children out of 8th grade comprehensive dating lessons, and (7) stripping the word "clergy" from adult consultants.

Social engineering is another exploitation of children. Groups such as the Boy Scouts was established to prepare boys for manhood, independence, strength, creativity, adventure and the love of God and country, are seeing drastic deviations. In a "celebration of cultural exchange, mutual understanding, peace and friendship," the 2019 World Scout Jamboree event hosted thousands of attendees from more than 200 countries and territories and made condoms readily available. For 108 years, the Boy Scouts of America's flagship program has been known simply as the Boy Scouts. However, with girls soon entering the ranks, the group has since changed their iconic name to Scouts BSA.

## BRAINWASHING OUR CHILDREN THROUGH ACADEMIA

America's abhorrent Common Core educational standards reject Biblical and Judeo-Christian values and substitute a cloaked Marxist ideological indoctrination. The storyline is equality of rules and regulations fed by academia to a passive student body and young brains of mush. As in any

fascist system, information is controlled and differing opinions and publications banned. The students are methodically poisoned and their morality shifted from general ethical principles to strengthening the Leftist cause to turn children into obedient Socialist Activists.

Because parents protested Common Core, Jeb Bush deceptively introduced his "personalized learning initiative." Better characterized as "depersonalized training," it puts children on computer screens that track their thoughts and determine their futures, and features less interaction with teachers and fellow students, allowing for complete indoctrination. The American Psychological Association found increased stress and anxiety for teens (8.7% in 2005 and 11.5% in 2014), due to more restrictive schooling and grading, and doubled suicide rate (tripled for girls).

Already employed in some schools is the deliberate discouragement for children to bond and develop close and lasting friendships, thereby creating feelings of loneliness and isolation and rendering the children vulnerable to ideological brainwashing. Researchers have said that music, usually a reflection of the times, has been getting sadder over the last 30 years. The "maleness" of songs has also decreased.

The schools and media are promoting a false narrative of multi-culturalism, when the goal should be multi-ethnicities, religions and races, living harmoniously under the host's culture. Migrants to America should be seeking America's peace and prosperity; to deny its existence is to deliberately propose her people's destruction – ethnocide. As such, the accusations of racism and colonization of "white-supremacist Europeans or Americans" prepare the groundwork for the annihilation of our heritage and language. Islam has declared its purpose to replace our culture with theirs against a backdrop of hate spewed by progressive faculty, black activists, feminists, and pro-Muslim organizations that demonize

Israel and Jews, Christians and America. The children are the war apparatus.

Universities are keeping their students ignorant, unskilled, and fearful of hearing opposition to the leftist agenda. They offer protection from the outside world in safe spaces, cry closets and therapy animals. Taught to fear self-reliance, the resultant adults will require government welfare programs, monthly stipends, and healthcare that includes heavy medication for cooperation.

## CONNECT THE DOTS

It is time to connect the dots, because each of these instances has one thing in common, the abuse and destruction of children, which, in turn, removes future adults and decreases world population. This silent war of annihilation is being waged by the United Nations; their UN 2030 Agenda describes their plan to control every nation, and the methods are already in operation. While some believe this to be a desire for Utopia, others may relate it to guilt for Europe's hand in World War II. Whatever the motivation, the ruling class is creating an obedient underclass. In point of fact, this is a fascist agenda of conquest to stunt natural growth and prohibit the use of our natural resources to nourish our survival. The result will achieve what other tyrants have achieved with weapons and bloodshed – depopulation, except on a now much larger scale, using children.

The Globalists of the United Nations are dedicated to a one world order unified under one flag or governing body, and the elimination of countries' borders, sovereignty and of individual's natural rights, and of that historic bulwark against the abuses of tyrants, the nuclear family, best attacked through the children. They seek complete freedom of migration worldwide to "increase liberty, reduce global poverty, and accelerate economic growth." However, where there is mobility of capital and labor, increases in capital cause decreased labor, resulting in disproportionately low wages, reduced

healthcare and education, and shrinking businesses. Unrestrained immigration brought us 14 million illegals by 2012. It does not produce assimilation,

but a higher incidence of crime and conflict from dissimilar ideologies and the depopulation objective of our silent warriors – our endangered children.

# Business Governing

CONTINUED FROM PAGE 3

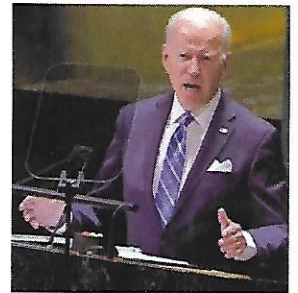

## VISION 2050

wbcsd

# TIME TO TRANSFORM

economy will be a collective effort. And, while our Vision 2050 report provides detailed action areas for business to leverage circular opportunities, governments must raise the ambition to facilitate this transition.

This policy brief highlights key priority policy areas that can drive a circular economy and put society on the path to reaching global sustainability goals. Government policy priorities span four categories each including specific policy recommendations and related policy actions: stimulating circular business models; supporting design for circularity; reinforcing product life cycles to maximize value and protect nature and sustaining transition that leaves no one behind.

## THE HEALTH OF NATURAL AND SOCIAL SYSTEMS IS CONTINUOUSLY TRACKED

■ Connectivity takes on a critical role in enhancing global capacity to monitor the status of the natural world and impacts upon it.

■ Continuous monitoring also enables negative impacts and illegal or harmful practices to be identified early, empowering people everywhere to take timely action to protect the natural environment.

■ The processing of complex datasets facilitates more targeted and impactful support for poverty and hunger alleviation, healthcare, education and disaster recovery efforts.

■ Companies leverage new levels of data quantity, quality, and sharing to monitor and manage supply chain risks and ensure responsible, sustainable sourcing.

## WBCSD BUILDS IMPACTFUL COALITIONS AND NETWORKS THAT:

- Facilitate the sharing of knowledge
- Enable and accelerate the adoption of standards and tools
- Create advocacy inputs for common policy

These, in turn, allow members to accelerate the transformation of major economic systems, in line with Sustainable Development Goals, the Paris Climate Agreement, and Vision 2050.

# Was There Election Fraud in Lake County?

## Maybe. Maybe Not.

By: Brian Massie, LFC Executive Director

In our opinion, at the very foundation of our Constitutional Republic is the ability of all citizens to vote for candidates and issues in free and fair elections. It is, therefore, extremely important that the registered voters in Lake County have the confidence in our Board of Election officials and our election process.

What we are about to reveal only deals with Lake County, and we cannot comment on what has transpired in any other state, or county, since we were not even remotely involved.

Why are we coming forward at this time? To sit back and not inform Lake County citizens of what we know would be a betrayal of Lobbyists for Citizens' mission statement. The truth must always be told.

We are continuing to hear that there was definite election fraud in Ohio, and the latest information is that there were 10,834 votes switched in Lake County. These are very damaging allegations. But is it true?

1. The continued negativity and doubt about the Lake County election process may drive voters away from the polls thinking why should they bother to vote since the system is rigged.

2. The allegations without legitimate proof is unfair to the loyal, hardworking employees at the Lake County Board of Elections; and, quite frankly, Lobbyists for Citizens will not be party to bearing false witness against anyone.

For approximately the last nine months, Lobbyists for Citizens has been working with other like-minded Lake County citizens trying to determine if we could find ANY election fraud issues in Lake County. Our group was so far out in front of other Ohio groups that we were referred to as the "tip of the spear". It was hoped that our group would be able to unlock the key to how election fraud happened in the State of Ohio.

We were working with the Dr. Douglas Frank group and statisticians in the State of Ohio to analyze the voter database information we received from Mr. Ross McDonald, the Lake County Board of Election Director, and the Ohio Secretary of State on-line voter database.

We would like to personally thank Mr. McDonald, and his assistant Mr. Tom Seymour, for their unfailing patience and help in answering our seemingly unending questions, giving access to the public database, and basically, doing everything that we asked of them to better understand their policies and procedures relating to election integrity.

We used the following methods to try to find the phantom voters that everyone has heard about if they have listened to Mr. Mike Lindell and Dr. Frank: (1) robo calls, (2) postcards, (3) knocking on doors, (4) Google Earth software, and (5) a great deal of data analysis.

We have spent an enormous amount of time trying to find those phantom voters. However,

we did not find A SINGLE PHANTOM voter. None, Zero, Nada.

I objected to any further data analysis when Dr. Frank stated that he had proof of the election fraud in Lake County. I sat across the table from him at a Parma restaurant and said that I would not bear false witness, and he must show me the proof, and it cannot be statistics generated from comparing projected results from a six-number variable polynomial versus actual results. We have waited for over two months, and my patience has worn out. We can conjecture why no proof has been offered, but it would be strictly speculation on our part. The fact remains NO PROOF has been offered.

We are not demeaning Dr. Frank's or Mr. Lindell's efforts in any way. They are patriots and may ultimately provide the proof of election fraud in other States. However, we are concerned about the perception that Lake County citizens may have about Lake County's election integrity.

We, therefore, would like to tell the Lake County Commissioners and the citizens of Lake County that we found NO voter or election fraud issues in the last election.

As citizens of this great nation, it is imperative that we continue to perform our civic duty by

voting in all elections. A lot of great patriots have died or were injured, mentally and physically, in foreign wars to protect your right to vote. Please never take that right for granted, and be sure that you pass it along to future generations.

We also have no doubt that the dedicated employees of the Lake County Board of Elections will ensure that we continue to have free, fair, and honest elections in Lake County. They deserve our support and thanks for a job well done.

## MEME ZONE

**If the current power grid can't handle a night of 20 degree temperatures without rolling blackouts. How are we going to plug 100 million electric cars up at night?**

# LIBERTY CAMP USA

LibertyCampUSA.com

2021 was a great year for Liberty Camp USA. Two camps were held in the month of July – one at Hidden Lakes Metroparks in Leroy and one at Chickagami Park in Burton. In total we shared the great story of America's founding in the 1700's to 205 young people! In addition nearly 70 adults participated in each camp as reenactors for the six learning stations and various support roles for the time traveler campers.

The camp follows a strict timeline and brings to life the names, dates and events of the Colonist's fight for freedom. Campers are entering 1st through 7th grade and Teen Patriots are 8th grade through college age who contribute as reenactor assistants. Campers meet the known and unknown heroes, learn that America is a Republic not a democracy and that the Declaration of Independence and the Constitution must be protected for America to remain free. As time travelers the campers experience the work, play and food of the 18th Century – they even learn the manners of the time!

Opportunities to expand Liberty Camp USA are being explored.

Thanks to generous donors and committed volunteers the cost of LCUSA remains at only \$50 for the week. LCUSA is a non-profit, 501(c)3 corporation. The goal is to make America's next great generation one young patriot at a time – it is not to make money. We are always looking for contributors – either financially or as a volunteer to reignite the flame of patriotism in today's youth who are the future guardians of America's freedom.

To see the camp in action please visit the website, [www.libertycampusa.com](http://www.libertycampusa.com). Registrations will open in March and camps fill up fast. The website provides opportunities to donate and the volunteer.

## Lake County Liberty Coalition

**Pursuing liberty through education, patriotism and self-governance!**

Want to keep earning your freedom?  
Believe in your God-given rights of Life,  
Liberty and the Pursuit of Happiness?  
Then join us and together we can  
make a difference!
