

### Elect Kovoor for Judge

Published by Robin Wilson · 5m ·

On Presidents Day, I am proud to officially announce my candidacy for Judge of the Eleventh District Court of Appeals, serving Ashtabula, Geauga, Lake, Portage and Trumbull Counties.

I am running because you deserve a judge who decides cases fairly and impartially, without prejudice or favoritism, free of political influence.

Take a look at what my opponent, Judge John Eklund says about his accomplishments on his Facebook page.

Here's what you should know: John Eklund has carried the water for First Energy for years, both as their lawyer and lobbyist and then as a State Senator. His support as a Senator was key in passing the multibillion-dollar taxpayer funded bailout of First Energy. As it turns out, the bailout was bought and paid for by the multimillion-dollar bribery scandal involving First Energy and Former Ohio House Speaker Larry Householder.

Instead of being held accountable for his obvious conflicts of interest, he has been rewarded with a taxpayer funded appointment to the Court by Gov. Mike DeWine. We need to drain the swamp on May 3!

**Judge John Eklund - Eleventh District Court of Appeals** ...  
 July 29, 2019 ·

I am pleased to report that last week the Ohio House concurred in the Senate amendments to **HB 6**, a bill designed to keep Ohio's nuclear power plants open, generating emissions-free energy, employing thousands and supporting Ohio Communities.

I've championed this cause for over two years, and, thanks to the efforts of many, it is on its way to Gov. DeWine's desk.

The bill will lower Ohioans' utility bills by hundreds of millions of dollars over the next several years, and contains important accountability terms to protect rate-payer dollars.

Many thanks to Senate President Larry Obhof, **Speaker Larry Householder**, Rep. Jamie Callender and so many others for their support.
