★ \_\_\_\_\_I spoke with Mr. Pruitt today regarding the group. He was under the impression both students were from Beauty of Diversity. He is concerned if we expand the group to all students African American students will no longer be a priority. We are going to have a follow up conversation this week or early next week.

I don't know with absolutely certainty, since it's not specifically included in my notes. However, an update from Crowe about the group was included on our agendas for advisory meetings in December, 2020, and March, 2021. In December, I wrote the agenda item as "Black Student Union", and in March, I wrote it as "Student Group". That said, I suspect we discussed the evolution of the group at an internal meeting sometime in between, and then talked with the larger committee about it in March. Again, I can't say 100% for sure. Does that make sense?

Were we able to determine which meeting Jason shared that the Beauty of Diversity participants wanted to be more inclusive? I don't have to have that, but it might help if I'm told we never shared that.  
Thanks!

Nothing on my end. After we met, I sent that follow up to Mr. Pruitt and Mr. Towns (bcc'd you both), but nothing after that. Let me know if I can help at all. Thanks!
