RE: **Property Tax Reform**

Dear Representative _____:

We are Citizens for Property Tax Reform. Our mission is to address the ever increasing taxes on our homes and the enormous strain that recent historically high increases have placed on our families. The most recent appraisal increases are fast becoming untenable. We want to help!

Recent changes disproportionately affects seniors and lower-income households. Such increases have the potential to begin a cycle of displacement and neighborhood destabilization by forcing out/eliminating our all-important anchor homeowners.

Property taxation is the only circumstance in which we are taxed on trends and speculation. We are in essence, paying taxes year after year in advance of a sale that has not yet taken place, at a price that may never happen.

This must change. There were several House Bill proposals that would have responded directly to our plight. None made it to the Governors desk. It is our aim to bring these bills out of purgatory, and onto the legislative floor anew.

While we realize the recent property tax increases have been a boon to the county coffers, we are in hopes that representatives such as yourself will do what you can and come to our aid. Please join us in our efforts to help homeowners remain secure. Can we count on your support?

Respectfully,

Signature
