

CALL MY REPRESENTATIVE

Good afternoon (Morning, etc.). My name is _____, and I am a member the Citizens for Property Tax Reform. Our mission is to address the ever increasing taxes on our homes, and the enormous strain that recent high increases have placed on our families.

Recent changes disproportionately affect EVERYONE, especially seniors and lower-income households. These increases have the potential to begin a cycle of displacement and neighborhood destabilization by forcing out our all-important anchor homeowners *like me*.

Property taxation is the only situation where we are taxed on trends and speculation. We are paying taxes, year after year, before any sale has taken place, at a price that may *never* happen.

This *must* change. It's our hope that representatives such as yourself, will do what you can and come to our aid. Please join us in our efforts to help senior and low income homeowners remain secure. Can we count on your support?
